RE: Jonathan Gabel

Dear Dr. Fox and his wonderful staff:

I want to take this opportunity to thank all of you for your help to Jonathan. I'm happy to say, you did a great job and he's back to his "old" self.

I'm very proud of Jonathan and his accomplishments as a BMX bicycle racer. This past month, you gave him the okay to start racing again, and off he went. He did a swing through Florida to get used to the bike and regain his racing form. This past weekend in Hampton, Va., he won a big race to clinch the #1 ranking in the country as a 17 year old Expert. He will enjoy being Number One for the remainder of the season and will have the opportunity to become the 1998 Champion in September at Louisville, KY.

On each visit to your office, we would look over all the framed pictures of past patients or contacts (ie: Phil Simms, Howard Cross, and your son, etc.).

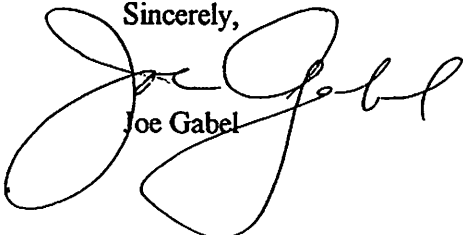

As a token of our immense gratitude for your careful and meticulous medical skills in the reconstruction of Jonathan's hand, the personableness and care by the nurses, I have sent along a framed autographed picture of him as he appeared on the cover of the November, 1997 issue of "BMX Today." "BMX Today" is recognized as the leading national BMX Racing Magazine in America.

We would be greatly honored if you would consider hanging the picture on the wall of your waiting room.

As a father of an athlete, I'm always concerned for Jonathan's physical well being. Crashes and subsequent injuries are inherent in the sport of BMX racing. I hope and pray at the start of every race that he doesn't get hurt. All through the 9 years he has been racing, this was his first serious injury. Meeting and working with you has given me the confidence knowing that my son was in good hands and if the need ever arises again, you all would be there.

Hopefully, we will never meet again in similar situations, but I look forward to meeting you in other circumstances.

Sincerely,

Joe Gabel
